Yash Nakul Gohel

Full-Funnel Marketer · Marketing Operating Models, Process Design & AI Integration
Bengaluru · +918618624209 · yashlehog@gmail.com · Portfolio · LinkedIn · Art Account

---

Full-funnel marketer, 6+ years building marketing functions across healthtech/life sciences, fintech, and DTC. I design operating models, process flows, lifecycle journeys, and content supply chains. I also run AI-integrated workflows end-to-end that include research, GTM strategy, creative, and analysis. Most marketers own a channel; I like owning the problem.

Relevant Experience

Assistant Manager - Brand, Creative & Communications (Feb'24 – Present)
TatvaCare (Zydus Wellness) · GoodFlip · Bengaluru | Healthtech / Life Sciences, DTC
- Built GoodFlip's DTC commerce operating model from scratch across Shopify, Amazon, and Flipkart, covering store architecture, brand identity, A+ content, and checkout.
- Built 8+ MoEngage lifecycle journeys across WhatsApp, push, and in-app; ran 4+ monthly performance campaigns, achieving 4.2% CTR (vs. 4% benchmark) and 12,000+ qualified leads/month.
- Unified copy and design workflows across 10+ product pages, eliminating handoff delays and driving 28% organic traffic growth in three months.
- Standardised creative production across 10+ launch films, shoots, and social campaigns, aligning internal teams and external agencies to a consistent brief-to-delivery process.
- Owned influencer marketing end-to-end, from creator sourcing and briefing to usage rights and performance tracking; led branding and packaging across digital and physical touchpoints, reducing CPA by ~18% through intent-matched landing pages. Currently launching the ARC Smart Ring.

AI & Automation Integration (Current Role)
- Built an end-to-end AI-assisted marketing pipeline spanning competitor research, ICP segmentation, GTM strategy, creative development, and campaign analysis, compressing multi-week workflows into days.
- Designed agent workflows, prompts, and context files with defined review gates for autonomous execution.
- Integrated AI-generated moodboards, storyboards, images, and video into traditional creative production; automated repetitive, low-judgement marketing tasks to free up time for strategic decisions.

Streak AI Technologies (Zerodha) · Bengaluru | Fintech | Content Strategist (May'21 – Mar'23)
- Built a 100+ article Help Centre and video library from scratch- a content operations function that lifted conversion +37% and cut support load for lakhs of first-time traders.
- Ran 150+ structured stakeholder and user interviews, synthesising 1,000+ responses into content, journey and product decisions. Wrote all in-product UX copy - the human-facing layer of a complex trading flow.
- Led B2B co-marketing partnerships from pitch and scoping through delivery with external partners - 5,000+ new users/month.

Quicko · Bengaluru | Fintech | Growth Hacker & Digital Marketing Executive (Jan'20 – May'21)

- Grew the Bytes newsletter to 50,000 subscribers - editorial vision, strong subject lines, and persona-led content planning.
- Launched the Quicko Blog with original illustration, motion, and explainer video - a content supply chain across formats.
- Seeded qna.tax into a self-sustaining, organically-indexed tax Q&A forum - support delivered without paid headcount.

Amazon · Bengaluru | Transaction Risk Investigator (Dec'18 - Jan'20)

- Analysed 200+ daily fraud patterns, building the habits of analytical rigour that now inform data-driven creative and content decisions.

Independent AI Projects

- ICP Generator - live tool that calls Claude in real time to research a product and return a full ideal-customer profile. Built to retire a recurring manual research task.
- Ladder & Leap - open-source Claude Skill for brand managers: positioning frameworks, copy craft, and campaign checklists packaged as a reusable agent workflow.
- Playlist Sync - unattended Python automation keeping ~5,000 songs across 67 playlists in sync between YouTube Music and Spotify every 12 hours.

Skills & Tooling

Process & Operating Model - Marketing process redesign, marketing operating model transformation, process mapping, capability gap assessment, benchmarking, cross-functional facilitation
AI & Automation - AI & automation integration, Agent Experience (AX) design, agent workflow design, prompt & context engineering, workflow automation (Python), Claude + custom Skills, VEO, Firefly
Client & Stakeholder Consulting - Discovery and stakeholder interviews, requirement scoping, brief-to-delivery governance, agency & partner management, in-house client servicing (GoodFlip, Streak partnerships)
MarTech & AdTech - MoEngage, HubSpot, GA4, Meta Ads Manager, SEMrush, Shopify, Amazon Seller Central & A+ Content, Flipkart
Reporting & Visualisation - Campaign performance reporting, funnel and cohort analysis, GA4 and MoEngage dashboards
Marketing Domains - Customer acquisition, CRM & lifecycle, campaign planning, content operations, influencer marketing, media, social, search/SEO, retention
Brand & Creative - Creative direction, copywriting, scriptwriting, storyboarding, UX copy, video production · Figma, Photoshop, Illustrator, Premiere, After Effects
